NO. 198—EIGHTIETH YEAR VICTORIA, BRITISH COLUMBIA, THURSDAY, AUGUST 4, 1938 SIXTEEN PAGES

## SCHOOL PROBE REPORT URGES UNIFICATION

Consolidated Control Would Remedy Existing Weaknesses, Experts Say

CHANGES MUST HAVE MAJORITY'S APPROVAL

The formation of a united school district to comprise all the area now included in the four municipalities of Greater Victoria, with a single elective board, is the principal recommendation of the committee of inspectors of the Department of Education who spent some months on an exhaustive survey of the education system and the individual schools of the district, and whose report, awaited with considerable interest for several weeks, was issued yesterday.

The report, a printed booklet of eighty-four pages, in small type, strikes a blow at many phases of the education system, and emphasizes the need for amalgamation to remedy existing weaknesses.

### TWO ALTERNATIVES

"It is the opinion of those conducting the survey that a better system of education may most easily be obtained through some form of consolidation," the report states. Either of two courses may be followed. One is the formation of a united school district, the other is the formation of an educational administrative area, with a director of education in charge.

In recommending the first alternative, the committee states that one school board would administer education within the united area, each of the four municipalities being given representation on the board. Under the second plan, provision would be made, if deemed advisable, for the election of a school committee of five members, to advise the director on matters pertaining to the general welfare of schools in the area.

### ADVANTAGES STATED

Enumerating the advantages of consolidation, the report points out that the four municipalities form a natural geographical unit, with no barriers between them, and a unit, also, from an economic standpoint.

## MERCHANT HELD ON SPY CHARGE

Man Accused in London Court of Securing Plans For Foreign Power

LONDON, Aug. 3 (CP-Havas).—Robinson Walker, clothing merchant, was arraigned in police court today on charges of violating the Official Secrets Act. He is accused of securing plans for a new shell-cap for a foreign power, while, according to Crown Counsel Vincent Evans, he named as Soviet Russia.

After a brief hearing, Walker was remanded until August 12. The prosecution said plans for the shell-cap were obtained from an official of Victor Armstrong, Limited, after the latter had informed police and was instructed to pretend Walker's proposition was acceptable.

According to Evans, Walker went to the Vickers-Armstrong official, Inspector John Birch, and offered him a small sum if he would let him have the plan and other data pertaining to the cap long enough to photograph them.

### INFORMS HIS SUPERIORS

Birch pretended he would be glad to co-operate with Walker, but promptly informed his superiors what had occurred, and they required the information to police. Authorities told the inspector to carry on the negotiations with Walker, the prosecutor continued. When the two met again, Walker, who previously had allegedly said he was doing secret service work for three foreign countries, asserted photographing the plan would not be necessary.

Walker said he would merely like to let the Soviet commercial delegation in London have a look at the material, the Crown counsel declared.

## PREMIER ON FLYING VISIT

Ontario Cabinet Head Exchanges Courtesies With Premier Pattullo Here

Passing a flying visit to Victoria, in more senses than one, Premier Mitchell Hepburn of Ontario arrived at Esquimalt at 5 o'clock last evening from Vancouver, spent two hours with Premier T. D. Pattullo and other members of the Provincial Cabinet, and departed again for Vancouver at 7:15 o'clock.

Just a holiday tour and a visit with my old friend, Premier Pattullo, I haven't anything else to say," the Ontario Premier smilingly remarked, as he re-embarked on J. P. Bickell's privately-owned plane, in which he flew to Victoria.

On Monday Premier Pattullo, by telephone, invited Premier Hepburn to include Victoria in his tour, and was told that if the visit could be arranged, Mr. Hepburn would certainly come to the city. At 4 o'clock yesterday afternoon the Ontario Premier called Mr. Pattullo on the phone, and announced that he was about to leave his hotel for the Vancouver airport.

### VISIT TO BUILDINGS

An hour later the two Premiers were shaking hands at the Esquimalt public landing, and together they drove to the Legislative Buildings in Premier Pattullo's car. There Premier Hepburn was met by Hon. John Hart, Minister of Finance, and Hon. Gordon S. Wisner, K.C., Attorney-General, with whom he made

## CONSTABLE CHARGED WITH MANSLAUGHTER

TORONTO, Aug. 3 (P).—Police Constable Graydon McCrea, confining to hospital with injuries suffered when an automobile he was driving crashed into a street car last Saturday night, was charged with manslaughter today and was admitted to \$10,000 bail. Two Great War veterans were killed and another man was injured in the crash.

## Temperatures Climb To Year's High Mark In Parts of Canada

Peterborough Hot Spot With Mercury at 96—Moderately Warm Is Cheering Forecast for Sweltering Prairies—B.C. Quite Cool

ONLY from scattered spots across the Dominion came word yesterday of relief from heat as Canadians in general sweltered from temperatures which reached highs for the year in many places yesterday.

The weatherman saw no sweeping change in sight.

## Mother and Two Children Asphyxiated

VANCOUVER, Aug. 3 (P).—Vancouver police said tonight illuminating gas apparently accidentally released had taken the lives of Mrs. Elsie Heads and her two children in their small, Joyce Road apartment early today.

The Royal Marine Band and a detachment from H.M.S. York led the August parade of the Victoria Junior Chamber of Commerce through the city streets yesterday afternoon. In the upper picture, the head of the parade is seen passing along Douglas Street, at View Street. Below, Kay White, "Miss Victoria," and her two pages, are shown in a gilded coach, which was drawn by four bay horses.

## Colorful Parade Is Witnessed by Many Thousands

Naval and Military Detachments and Bands Lead Flower-Bedecked Floats in Carnival Procession—"Miss Victoria" and Attendants Ride in "State in Carriages—Many Prizes Given

UNDER a cloudless sky and through city streets bedecked with flags and lined with many thousands of Victorians and visitors from across the border, the glittering mile-and-a-half-long parade, organized by the Junior Chamber of Commerce, was a picturesque carnival spectacle in the early hours of yesterday afternoon.

To the strains of martial music played by eleven bands, the colorful procession of naval and military units, official cars, horse-drawn carriages, "Miss Victoria" and her attendants, elaborately decorated floats and private and commercial cars, comic conveyances and equestrian units took a few minutes under half an hour to pass any given point along the route.

### AWARDS MADE

At 1 p.m. the parade assembled at Royal Armistice Park, where the judging of the many sections was carried out and the following awards made:

## Marion and Hall Election Winners

PRINCE ALBERT, Sask., Aug. 3 (P).—A. Jules Marion, former member of the Legislature, was tonight elected to the Saskatchewan riding of the Provincial House, defeating W. J. Windrum, by twenty votes in the unofficial count. Both men were Liberals.

In the other provincial deferred election, D. A. Hall, Liberal, defeated Conservative W. G. Smith in the Cumberland riding.

### Vancouver Obtains Dominion Loan for Waterworks System

VANCOUVER, Aug. 3 (P).—Hon. Ian Mackenzie, Minister of National Defence, said tonight on his arrival from Eastern Canada, a loan of \$750,000 had been granted to the Greater Vancouver water district under the new Municipal Improvements Assistance Act. It is the first loan to be granted under the act, which was passed at the last session of Parliament to assist municipalities establish self-liquidating projects.

## Mexico Not Agreeing to Arbitration

MEXICO CITY, Aug. 3 (P).—Mexico today rejected the United States' proposal of July 21 to submit to arbitration the question of Mexico's failure to indemnify United States citizens whose farm lands she has expropriated since August 30, 1927.

## FASCISTS MOVE AGAINST JEWS

Government Orders Bar From Schools—Formulating Comprehensive Law

ROME, Aug. 3 (P).—Italian Government today announced the first of anti-Jewish measures fore-shadowed by the new Fascist doctrine, which holds that Italy's 47,000 Jews "do not belong to the Italian race."

The order barred foreign Jews from Italian schools, a measure of limited scope, since it does not affect Italian Jews, and the number of foreign Jews normally attending Italian schools is not large.

### SYMPTOMATIC REGULATION

Italian Jews considered the regulation "symptomatic" since it disclosed the racial campaign had passed from the academic to the practical stage. Other more stringent regulations are expected to follow.

According to credible sources, a comprehensive law governing the activities of Italian Jews is being formulated and the Fascist Grand Council is expected to act on it October 1.

### RATIO IN PROFESSIONS

One reliable informant said the prospective racial law probably would have these general objectives: 1. Elimination of Jews from the general staffs of the armed forces; from journalism, teaching and arts; such as motion pictures, literature and painting; from political and economic positions connected with the state; from the Fascist party, and from Fascist syndicates.

## LATE NEWS BULLETINS

### SAYS AIRPLANE PRODUCTION COMING LATER

MONTREAL, Aug. 3 (P).—Frederick Handley-Page, member of the British Air Ministry Mission investigating Canadian potentialities for the manufacture of bombing planes, said tonight in an interview he did not think there was any expectation of production "right off the bat."

Handley-Page felt Canada could become an important link in the building of defence resources for the Empire in case of emergency, "and this is really what is intended."

### BRAZIL'S BANDIT TAKES SIX MORE LIVES

MACEO, Alagoas State, Brazil, Aug. 2 (P).—The bandit Corisco, called "Lightning," rode out of the backwoods in Northeastern Brazil today and struck at the remote town of Fazenda in a vengeance spree, killing six. Corisco, a surviving lieutenant of One-Eyed Lampezo, known as Brazil's "public enemy No. 1" and the most ruthless bandit killer of the western world, killed five relatives of the wife of a police lieutenant who last week led a pitched battle against Lampezo's men in which Lampezo was slain.

### NATIONS JOIN TO HELP REFUGEES IN LONDON

LONDON, Aug. 3 (P).—Twenty-seven nations today established a permanent refugee aid bureau here in an effort to ease the plight of thousands of Jews being urged to leave Germany. George Rubles, veteran United States Government advisor and international lawyer, was chosen permanent executive director of the organization, an outgrowth of the thirty-two nation refugee conference called at Evian-les-Bains, France, last month.

### TWENTY NEW FIRES IN WASHINGTON

SEATTLE, Aug. 3 (P).—Twenty new fires were reported in Washington State today. Forest Supervisor T. S. Goodyear reported fifteen new fires were discovered in Skagit and Pend Oreille Counties in Northeast Washington. He said a 100-acre incendiary blaze occupied a crew of forty men near Onalaska in Lewis County.

## Army Report to Tokio Says Four Attacking Soviet Battalions Repulsed With Heavy Loss—Japan Fully Prepared but Wants No Genuine War Official Quarters Insist

## Moscow Claims Operations Of Troops Only Defence

TOKIO, Aug. 4 (P).—Soviet Russia threw four battalions against Changkufeng and Shachofeng at 10:30 p.m. on Wednesday (8:30 a.m., E.S.T., Wednesday), but met a repulse in which they lost 200 men, a Japanese army communique said today.

The Russians advanced in a dense fog, Japanese reported, but their ranks were exposed when Japanese suddenly fired "thousands of flares" into the sky, throwing a ghastly light over the battle.

## BOTH CLAIM AIR VICTORY

Large Scale Engagement Fought by Chinese and Japanese Planes

SHANGHAI, Aug. 3 (P).—Both Chinese and Japanese claimed victory today in a large scale air battle near Hankow, provisional Chinese capital and target of the Japanese drive up the Yangtze River.

Japanese asserted a Japanese air fleet engaged fifty-four Chinese planes, shot down thirty-two, and destroyed seven more in a bombing raid on Hankow which ended with only two Japanese craft missing.

Chinese declared they lost only six planes and brought down twelve Japanese raiders, including one bomber.

### CITY FLOODED

Japanese ground forces were admitted by Chinese to have entered Hwaangchi, slightly more than 100 air miles east of Hankow, but Chinese said the invaders were under water. The city was said to have been flooded by rising Yangtze River waters which poured through broken dikes.

The warfare prevented repair of the broken embankments, Chinese said, in apparent denial of Japanese charges that the dikes were being cut deliberately to halt the Japanese advance.

Japanese striking at Nanchang, Chinese air base ninety miles south of the conquered Yangtze River port of Kukiang, were said to have overcome Chinese resistance to reach a point within fifty miles of their objective.

## Hailstones Tear Holes in Roofs

STURGEON FALLS, Ont., Aug. 3 (P).—Even the old-timers admitted today they never had seen anything to equal the hail and thunder-storm which swept this Northern Ontario town and district during the past two days. Hailstones tore holes in the roofs of many buildings.

## MINISTER OF TRADE GOING TO EUROPE

OTTAWA, Aug. 3 (P).—Hon. W. D. Ewart, Minister of Trade and Commerce, has planned a trip to the United Kingdom and Europe. He expects to sail the end of next week. The minister will visit the Glasgow Exhibition.

## HOT WAVE COVERS SOUTHERN STATES

Temperatures Range Through Ninety Degrees Scale in Numerous Cities—Several Deaths

CHICAGO, Aug. 3 (P).—Heat plagued large sections of the United States today.

Temperatures ranging up through the 90's were reported in the East and Midwest.

New York City's noon reading—92.4 degrees—set a record for the date. The weather bureau predicted it would be just as hot tomorrow there.

A high of 91 was registered at Chicago, one point under yesterday's. A day's summer peak, while officials estimated 800,000 persons sought relief at beaches. Two deaths were attributed indirectly to the heat in upstate New York. Joliet, Ill., where the thermometer reached the 90-level, recorded one fatality.

Southern California and Arizona counted fourteen deaths in the wake of a sultry siege.

## Physical and Mental Fitness of Scholars Lauded by Committee

School Survey Experts Find Teachers Are Lacking in Progressive Spirit—State Instruction Handicapped Through Absence of Materials

"In general it may be said that the schools in the area contain a splendid type of pupil, both physically and mentally. The teaching body, on the average, possesses an earnestness of purpose deserving of commendation."

Such is the first conclusion drawn by the committee of school inspectors appointed by the Department of Education, under the chairmanship of William Gray, North Vancouver municipal inspector of schools, to carry out an exhaustive survey of the educational system and the individual schools of the Greater Victoria area. The report, which was made public yesterday, contains a detailed review of all schools in the city and surrounding municipalities.

Referring to the new programme of studies, the report states that a few progressive teachers and principals, on their own initiative, are successfully putting the programme into effect. These teachers are studying modern theories, and, in their classrooms, are applying what they learn.

### INDIFFERENT ATTITUDE

"There is, however, a much greater number of teachers and principals with an indifferent attitude towards progressive teaching," the report continues. "From observations made, it would seem that they are interested only in carrying on their schools and classes in the manner to which they have been long accustomed. This is borne out by the fact that they have not attended summer courses. Their schools reflect this lack of progressiveness."

"Between these two groups is a large number of teachers who are anxious to understand and apply the new procedure, but lack direction. To them some of the technique appears difficult. They would welcome explanations and guidance in interpreting these phases of the new curriculum."

"The effectiveness of instruction is badly handicapped through the absence of materials and equipment, such as visual and auditory aids, supplementary readers, and school libraries."

### PRESENT-DAY NEEDS

"Through professional reading, study groups, staff meetings, and summer school courses, teachers should try to gain a better understanding of the workings of the new programme and should adjust their teaching procedure to meet present-day needs. In the elementary schools there is a great need for teachers who are better trained for special work in library work, in organizing assemblies, in pupil guidance, and in the various other phases of school work which enter into the new programme."

"The committee gives general commendation to the Central Junior High School. Dealing with the senior high schools, the report points out that these were found to be too academic, and committed entirely to preparation for entrance examinations. There is inadequate provision for practical courses and the life needs of the pupils. Outside of the Victoria High School, the provision of practical courses is negligible," the report states.

"Tables kept for the use of the students are inadequate. Only in the Victoria and Oak Bay High Schools are there to be found

### RELATIONS IN SAANICH

"The Esquimalt and Saanich High Schools were found to be the most unsatisfactory," the committee states. Concerning the latter, the report deals at some length with the situation existing at the time the survey was made some months ago between the Saanich trustees and the teachers in general, and states that it should be the aim of the new board to investigate complaints and effect remedies wherever possible.

A testing programme was carried out during the survey, and in touching upon the results of the tests, the report states that the most striking feature is the unequal attainment of pupils in the same grades throughout the area. This is taken as an indication of the need for more scientific supervision. The committee suggests means by which conditions in the high schools of the area as a whole could be improved and the report contains further recommendations for the improvement of commercial and technical instruction.

A special award, donated by Terry's Ltd., for visiting bands, was made to the American Legion band, from the American Legion, 405, Scott, Drum and Bugle Corps from Port Angeles.

Headed by Police Chief J. A. McLeish, and escorted by motorcycle police outriders, the parade moved away from the park at 2:30 o'clock and proceeded along Cook Street to Yates Street, down Yates to Douglas Street, along Douglas to Belleville Street, Belleville to Government Street, and along Government to Esplanade Street, where the procession disbanded.

Chief McLeish was followed by Chief Marshal Ernest H. Harris, president of the Junior Chamber, and his deputy marshals. Next came the smartly turned out Royal Marine Band of H.M.S. York, followed by a naval unit from the visiting cruiser, escorted by the Victoria Canadian Naval Band.

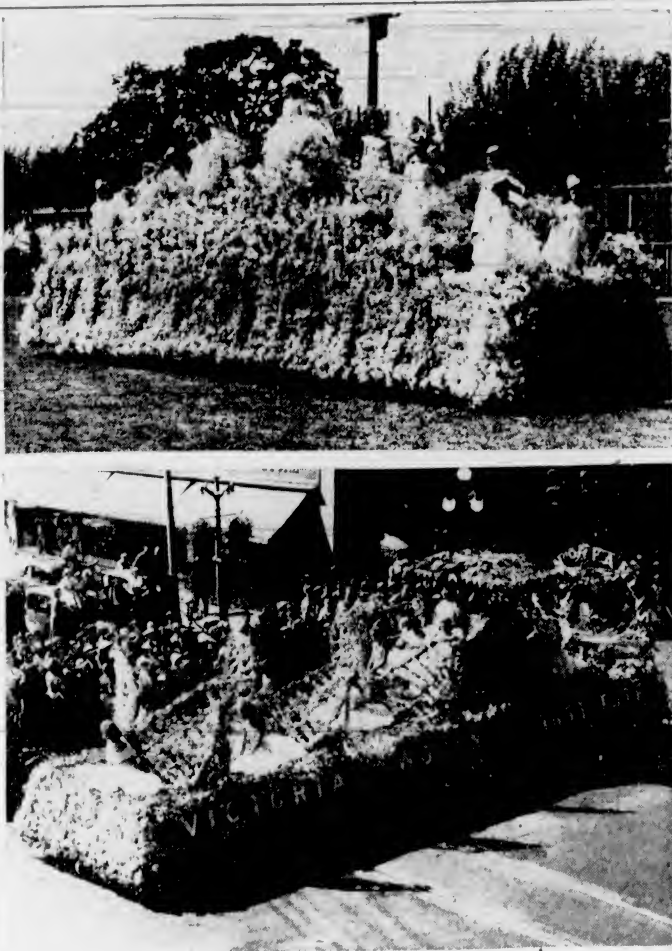

A unit of the R.C.N. preceded a marine detachment from H.M.S. York, after whom came the 5th B.C. Coast Brigade Drum and Bugle Corps, a Royal Canadian Artillery detachment, a 1st B.C. Coast Brigade detachment, and a detachment of the Princess Patricia's Canadian Light Infantry. The 16th Canadian Scottish, 1st Battalion, Pipe Band was followed by a detachment from the same battalion.

Queen Lorraine of Port Townsend, drinking in decorated touring car, was followed by a car containing representatives of the Seattle Potlatch of Progress, the United States visitors being escorted by the 1st Battalion Canadian British Columbia Brass Band.

Mayor Andrew McGavin and Alderman W. H. Davies, chairman of the city celebrations committee, preceded three touring cars containing city aldermen and visiting civic officials, including C. A. Bigelow, deputy commissioner for Portland, and Mayor Victor B. Harrison, Nanaimo.

In their colorful red, white, blue and gold uniforms, and carrying silver wands, the Victoria Girls Drill Team, with their mascot, Raymond Ralph, formed a fitting escort for "Miss Victoria," who rode in state in a gilded carriage, with purple and gold panels and gold velvet draperies. The carriage was drawn by four horses and was flanked on either side by members of the drill team. Behind "Miss Victoria" came her two attendants, Doreen McGregor and Jean Wilson, also in a gilded carriage drawn by

## City's Float Bedecked in Flowers

Pretty girls and pretty flowers combined to make this floral float, entered by the City of Victoria, one of the outstanding mobile displays in the August parade yesterday. The float was entirely constructed of fresh flowers, as was also the entry of the Victoria Women's Institute, shown in the lower picture, which won first prize in the organizations' section.

two horses, followed by the Gresh Temple Shrine Band, with a portable xylophone used for the first time by local musicians.

### CARNIVAL FLOATS

The carnival floats were headed by the Victoria city float, constructed and decorated by the parks department. On a background of gypsophila, the name "Victoria" was worked in baby-royal dahlias, and many-colored sweet peas were artistically arranged in the design. Embowered in flowers, twelve tiny girls, in dainty old-fashioned costumes, strewed flowers along the route of the procession.

Drawn by four white horses, the South Vancouver Island Dairyman's Association's float was a floral triumph. A milkmaid, in poke bonnet, operated a silver churn beside a cow made of yellow daisies, and behind her sat two charming young ladies in old-fashioned costumes. On either side of the float the name of the association was worked in red geraniums on a background of silvered foliage.

Girls members of the Shawinigan Lake Dramatic and Balminton Clubs posed as celestial dolls on the Shawinigan Lake Athletic Association's fairy-colored float, which was followed by the 5th (B.C.) Coast Brigade Band.

### ORIENTAL DISPLAYS

Beautiful Chinese girls dressed in pink and yellow silk costumes, and their fans, formed the Chinese Consolidated Benevolent Association float, which embraced a floral effect interspersed with Oriental architecture.

Girls in diaphanous white gowns, and tiny fairies, appeared on the Victoria Women's Institute float. It was decorated with a motif of violet, yellow and pink, with paper streamers and masses of fresh flowers. The Firemen's Mutual Benefit Association entered a gigantic float covered with thousands of yellow, red, white and violet gladioli. It was surrounded by a fireman's helmet and two ladders entwined with flowers.

Local Japanese had a float built in the shape of the famous Mount Fujiyama with a loud-speaking unit to reproduce Oriental music from phonograph records. It was followed by a number of girls dressed in colorful kimono.

### MINIATURE GARDEN

Lawns of real grass, a tiny garden, tennis court and a house under construction were featured in the Shawinigan Lumber Company's entry. The float was decorated in green, violet and red, with streamers of colored paper.

Wing Sang Lung Company entered a reproduction of a Chinese temple and a garden bridge lined with Oriental maidens in full costume. The float was decorated in bright hues with masses of stocks and geraniums.

Bearing the sign "This Was Our Boy and Girl Twenty Years Ago," Dowell's Pacific Transfer displayed an obsolete truck, followed by the latest addition to the company's fleet, a brand-new removal truck of the most up-to-date design.

### DECORATED CARS

The decorated private cars formed a picturesque feature of the parade. Miss Gladys Townsend's car was a work of art in gladioli and many noisettes. Mrs. J. C. Newbury's car was a pretty picture of fresh flowers and paper flowers and wreaths, tied with

cellophane bows, and Mrs. Jean Smith's car made appropriate use of the slogan "Follow the Birds to Victoria."

The Empress Sales Company entered three decorated cars. The first, a new Hillman coupe, was the bridal car of Mr. and Mrs. Norman Scott, of Sackatchewan, who were married here on the morning of the parade, and the others were a new Hillman sedan and a new Hummer sedan. Under the sign "Ye Olde Apothecary's" McGill & Orme Ltd., featured on their car a gilded mortar and pestle. The Vancouver Island Dog Fanciers' Association entered a float decorated by Arthur Beales.

### INDUSTRIAL ENTRIES

Buckleyfield, Ltd. float contained a neat array of pastry and bread flour, interspersed with sheaves of wheat, on a truck with blue trimmings.

Togo Cleaners entered a formal Japanese garden with dwarf Japanese trees, plum blossoms in a dainty pink shade and shrubs and foliage arranged to produce a picturesque effect.

Victoria's first fire truck, designed by Leif W. J. Smith, was manned by Fireman M. Walter McDonald, Abbott Blair, Graves Tucker and M. Lellan. It contained a wild assortment of bells, sirens and fire-fighting apparatus arranged in comic array.

"Miss Victoria, 1915," consisted of an ancient touring car bearing a bell of other days. The car was decorated with colored bunting and emitted sundry wheezes and groans as it made an uncertain course along the route.

### COMIC MARCHES

Stanley James, noted local singer, appeared as a Highland officer, with medals the size of soup-plates and a clattering array of side-arms. D. Stratford, dressed as a cowboy, for which his own legs furnished the motive power.

The Island Motorist magazine entered a smart sport model coupe decorated with colored streamers, and a J. Southall exhibited nickel-plated modern sawdust burners on a service truck.

A streamlined bus decorated with white streamers and red and blue gaudily bore the name of the Royal Blue Line Seated on a throne above was a princess with crown and white robe, and a tiny attendant pointing the way.

Baldern Nurseries' exhibit featured a queen on a floral throne. The float was a colorful mass of silver leaves and flowers forming an alternate red and pink effect.

## WAKE UP YOUR LIVER BILE— And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of bile into our bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks ugly. A sure bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes three grains, and Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. Try the work of nature! But have no casual or mercenary sale. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 50c.

## SALESMEN IN PARLEY HERE

Dealers for RCA Victor Corporation Hold Annual Convention in City

With the bulk of their business attended to during the first day of their annual two-day convention in Victoria, 100 salesmen and dealers of the British Columbia division of the RCA Victor Corporation today are polishing up their golf clubs for a tournament on the Colwood links.

More than seventy-five visiting dealers and salesmen met in the lower lounge of the Empress Hotel yesterday afternoon to see the new line of radios being offered by the corporation this year, and to hear the sales lectures given by various company executives.

Features of the handsome new radio models for 1939 were demonstrated by S. W. Radcliffe, sales manager, and J. L. McMurray, general service manager, who came from Montreal to address the meeting. F. A. Boyle, general manager of the British Columbia branch of the Canadian division, arrived from Vancouver to attend the convention.

Main new features of the 1939 sets are that electric tuning and automatic frequency control, as well as improved cabinet design, have been introduced into the lower-priced sets. Bulk of the new machines incorporate all-wave reception bands in their design.

Growth of radio within the past twenty years was traced briefly by lectures. Advances within the past ten years were many. Main improvements were the general introduction of superheterodyne station selection, followed by the new features of electric tuning and automatic frequency control, dealers said. Approximately twenty-five local salesmen and dealers, as well as eleven more radio men from the Island, attended the meet. Wednesday's business session was followed by a dinner and a series of skits by local artists.

## MEN URGED TO REMAIN

Minister of Labor Alleges Obstruction by Jobless Union Officials

"There is definite evidence that officials of the Relief Project Workers' Union are urging unemployed single men from other provinces who underlook to leave British Columbia, to remain in this province," Hon. G. S. Pearson, Minister of Labor, declared yesterday, referring to the movements of the single jobless men since their departure from Victoria and Vancouver.

Mr. Pearson stated that he had direct evidence that at least five men in Interior towns who had not been members of the group which gathered in Victoria had signified earlier their willingness to return to their homes in other parts of the Dominion without assistance from the Government, but on being approached by representatives of the

union, they had decided to remain in British Columbia.

### MOVING IN GROUPS

"The union is doing everything in its power to keep the men around," Mr. Pearson asserted. "It is deplorable, also, that the men are still moving in groups through the Interior. Though the groups are growing smaller, they have not yet broken up."

The minister explained that the Government was giving the men work at the different relief centres, so that some value would be returned for the monetary assistance provided, and so that it would not be a "hand-out."

"The men, however, are now taking the attitude that that is the work they were sent out of the city to get, and they want to go from one town to another working for the relief payments made. It is all contrary to the spirit of the thing," Mr. Pearson stated.

### BELIEVES WORK FOUND

Referring to the numbers of relief payments made, Mr. Pearson

stated that of the 473 British Columbia men entitled to the assistance offered by the Government only 283 had applied for a second cheque of \$6.40. Cheques for that amount had been promised every ten days. The minister took this as an indication that the remaining 190 men had found employment of some kind, and as justification of the Government view that a work was to be had if the men would go out to look for it.

### JOHANNESBURG (B.U.P.)

While three tourists were mending a punctured tire in the Kruger National Park three lions appeared from the bush and charged the cars.

Paying little attention to the fleeing motorists the lions began to tear a bundle of blankets from the side of the car.

When the tourists returned to recover their car on the following morning, only a few pieces were left of the blankets.

### "CANADA CALLING"

Great Britain hears a lot about Canada from time to time and in one way and another, and there is much more about which Canadians would like the people of the British Isles to know. Sometimes the news is good; sometimes it is bad. Sometimes extraordinary events such as the birth of the Dionne quintuplets overshadow all other reports of happenings in the Dominion. The doings of the Aberhart Government and the Social Credit Party in Alberta have been news in Great Britain for many months. From time to time much interest has been aroused by advertising campaigns designed to increase the sale of Canadian goods in the United Kingdom market. Such a campaign is being conducted at present. Canada is making the most determined effort in her history to sell large quantities of her agricultural products.

Previously "Canada Calling" has been the slogan in the advertising of the Department of Trade and Commerce. During July with this has been coupled advertising of Canadian canned tomatoes. This month and in part of September canned salmon is to be featured. In September and October cheese will receive attention, followed by apples as the crop comes on the market and then by bacon. The scheme provides for a highly-concentrated and continuous drive in the Greater London area over a period of nine months. By this system of advertising specific products and concentrating the campaign in certain districts, it is expected that there will be a marked increase in consumer demand.

Reports from London state that the plan is meeting with a favorable reception from the retailers. They are anxious to sell Canadian goods where quality is uniform and the supply is continuous. Before the campaign was opened the situation was given close study by authorities in various phases of marketing. Grades were established, standards set and distinctive and attractive labelling and packaging arranged with the exporting companies. The authorities are confident that on the score of quality the Canadian products offered in the United Kingdom will compare favorably with if not prove superior to competing products. Under such conditions the goods from the Dominion will be able to hold their market, once obtained as long as sound and systematic advertising is maintained.

Continuity of supply is almost as necessary as high quality of product in holding markets. British importers frequently have complained at inability to obtain supplies from Canada just when a market has become well established. This applies particularly to the beef cattle and hog trade and to a lesser extent to other products. It is to be hoped that the producers will see to it that this complaint does not arise again, otherwise the present sales campaign might prove of little lasting value, and the \$300,000 being expended to establish a permanent market will be lost.

### THE SCIENTIST LOOKS BACKWARDS

According to the school histories the modern era began somewhere about the end of the fourteenth century. For convenience of reference a definite date is an advantage. If it can be agreed upon. There is something to be said, especially by scholars, in favor of 1453 as the turning point from the mediaeval to the modern age, because it marked the capture of Constantinople by the Turks, and the consequent dispersion of Greek scholars westward over Europe with the literary and scientific treasures of ancient times. There is something to be said for 1438, the date assigned to the invention of printing. The appearance of the Copernican theory about the end of the century has been mentioned in this connection. These are outstanding events, no doubt, but there are later dates, as well as earlier, which mark significant changes in the life of mankind. A student whose chief interest is social and economic might regard the end of the feudal system as the dawn of a new era. A soldier might think of the invention of gunpowder. Manufacturers and traders are apt to think in terms of the invention of machinery and the improvement of transportation, and might prefer to name a later date than any of the above, and others will be ready to remind us that the general diffusion of education among all classes is comparatively recent.

A superhuman observer and recorder of mundane events might be able to explain the why and wherefore of the varying rates of progress in different fields of human endeavor, but as yet no formula has been devised to account for the irregular tempo, the spasmodic behavior of some of the streams and rivulets of knowledge. There is a theory much in vogue in scientific circles at present to the effect that when energy is emitted from anything it does not flow in a continuous stream like water out of a tap, but in little bits at a time. An electric charge is not to be considered as the distribution of a continuous fluid, but as a series of separate charges or jets. There may be nothing in the analogy, but historically the growth of certain branches of knowledge has been by fits and starts. It is a far cry from the early Greeks to Newton, yet we have the testimony of scholars in support of the statement that the third century B.C. Greeks developed mathematics to the point of doing things equivalent to the integral calculus. History also informs us that a Greek astronomer calculated the polar diameter of the earth to within fifty miles of the presumably accurate "modern" figure. Modern philosophy is usually taken to mean the philosophy taught since the time of Bacon, Spinoza and Descartes. In spite of the fact that there are but few of the problems of "modern" philosophy that were not searchingly explored in a very modern manner by the Greeks.

When the scientists of today speak of "modern" science it is not the science of the sixteenth

century that they have in mind. Their view appears to be that the physical science that was currently taught and believed forty years ago belongs not to the modern era at all, but to an "early" stage of development. In our old unstructured Victorian days we were allowed to think of the atom as a billiard ball, extremely diminutive, but hard and real, nevertheless. A few years ago we were told to think of it as a group of electrons whirling about a nucleus, in fact, a miniature solar system, mostly empty space. Now we are asked to believe that it is in a sense a particle and in another sense a charge of electricity. If the puzzled layman asks how these things can be he is further disturbed by the news that the laws obeyed by the electron are as queer as its constitution. J. W. N. Sullivan in his volume on "Limitations of Science" says of the study of matter that the "modern" era began about the year 1895, and further that between that year and the year 1900, researches were begun that have changed the whole conception of matter and have even changed the ideas hitherto held concerning the meaning and purpose of physical science.

In spite, however, of all these new and baffling scientific concepts and points of view it will probably be a long time before the period which includes the Renaissance and the Victorian era is relegated to the mediaeval age.

### TOURIST FIGURES RISE

Again tourist figures show an increase in the traffic to the southern portion of Vancouver Island. Totals for the first seven months of the year are 33½ per cent higher in the number of foreign motor cars entering by the ports of Victoria and Sidney and 29½ per cent higher in total number of automobiles entering through the two customs ports. This is gratifying to the Victoria and Island Publicity Bureau and other agencies which play a part in attracting tourists here. All are to be congratulated for their work which is more than satisfactory when consideration is given to the fact that tourist traffic in the East and many other parts of the continent is lighter than last year.

It has been noted that visiting automobiles are not staying as long this year as last. The business recession in the United States during the Spring months is the chief reason for shorter trips this year. An upturn having been in evidence for the past few weeks, there is a possibility that August and September visitors might not find themselves so hurried. The forest fires being under control in the upper section of Vancouver Island and the scenery along the highways there being unscarred and free from smoke now, it is the earnest hope of all Island residents that tourists will again feel free to enjoy the many attractions there as well as in the southern part of the Island.

### SEVEN THOUSAND MILLIONS

The grand aggregate of public net direct debt and indirect debt of Canada totals \$7,162,163,113. This is the figure at which it stood last year; it is greater today, for governments, both Federal and Provincial, go on borrowing to meet their obligations. The debt is too great for the income derived from taxation; hence there are budget deficits. Governments are doing little or nothing to set their financial houses in order. So long as there are deficits of between \$50,000,000 and \$100,000,000 annually on the nationally-owned railways, so long as the unemployment problem remains unsolved, so long as governments, both Federal and Provincial, engage in projects that are unnecessary, there will be no decrease in the public debt; on the contrary it will go on mounting with hope of taxation relief receding farther and farther away. It is not a pleasant picture to contemplate. Were it viewed from a business-like aspect every political energy at the present time would be bent on a solution of the difficulties, particularly the railway and unemployment issues. There is bankruptcy in statesmanship where governments muddle along and allow handicaps on national prosperity to intensify.

### The Weather

Meteorological Office, Victoria, B.C., at 7:00 p.m., August 3, 1938.

**SYNOPSIS OF WEATHER CONDITIONS**  
Pressure is low north of Queen Charlotte Islands and has fallen over the British Columbia Interior. Cool, showery weather continues in northern districts, but it has become warmer in the Okanagan and Kootenay, increasing forest fire hazard.

It has been mostly fair with moderate temperature on the Prairies.

#### Glancing Over Sport

Do you know that Postmaster-General James B. Farley, of the United States, who visited the city just a few days ago, is next in line for the position of the commissioner of organized baseball? Farley is the man to succeed Commissioner Judge Landis, who is due for retirement three years from now, but is expected to forsake the arduous task long before that time. A softball fan must have learned a lesson from the accident which occurred at Central Park the other evening when a spectator was painfully injured from a flying bat. Umpires have their instructions to order the people back from the first and third base foul lines, but still they keep crowding to see what goes on. You can see just as well seated in the bleachers as from the line where it is mighty dangerous for all concerned. Big league scouts are heading for the Coast almost daily to get a glimpse at the "boy wonder" of the circuit, Freddie Lundeberg, of the Seattle Rainiers. Owner Emil Sick will put a fine price tag on the youngster's head when the time comes. Don Gowan arrived back in Vancouver and explained the loss of the Willingdon Cup on Eastern fairways—J.D.

#### Bluecoat Forgets

Friends of Tommy, the bluecoat, believe that advancing age is causing him to become absent minded. One day last week he worked from 8:30 p.m. to 2 a.m. before he realized that his two-week vacation commenced the previous day. We hope that next year's Navy Week committee arranges the boat races for a Wednesday afternoon in order that more people may see the bluecoats and naval veterans in action. An acquaintance of our tobaccoist friend says he makes out the financial troubles by burning all his bills. But it would be far better to have a bill of fare instead of a bill of fare. The man who longs for the old days of wooden sidewalks was probably a small boy who found the old nickel under the sidewalk. Bill, the Broad Street barber, believes that many a man owes his golf to business success. Salesman Horace does his hardest work before breakfast—getting up—G.B.

#### Small World, This

They sat chatting in the refectory room at the Royal Athletic Park when the Royal Canadian Mounted Police, H.M.S. York-RCN football match, and Marine Heathcote, English arborist—and, as was to be expected, the discussion was football. Shrimpton had just finished telling his unknown caller that he quit playing football a few years ago, and Heathcote's position was a similar one. The conversation continued, and the next thing the pair knew they played against each other in 1921 in opposite goals—Shrimpton for Victoria, and Heathcote for H.M.S. Raleigh. Small world, this—S.T.

#### Played Safe

One of the contestants in the Junior pipe division of the recent Scottish Games, had a novel way of keeping his friends and preventing neighbors from throwing things at his practice. Since his arrival here in mid-July, this boy, a Seattleite aged fourteen, has kept the peace by rowing out every morning to Jimmy Chicken (Mary Todd) Island, off Turkey Point, for the daily workout. Here he gave full vent to windy laments, sturdy marches and jolly reels, free from the fear of maddening a throng unaccustomed to Highland airs in the making. We think his thoughtful friend should be commended for his practice. ### FIFTY YEARS AGO TODAY

(From The Daily Colonist of August 4, 1888.)

Fire on Wharf—On Wednesday morning about 8 o'clock a fire occurred on the wharf of Mr. Rowling, at the north arm of the Fraser River. It started in a pile of lumber and shingles belonging to O. G. P. Wood, contractor. As soon as the fire was detected, Mr. Wood had fourteen men on the spot with buckets, who speedily got it under control, but before about \$100 worth of lumber and shingles were destroyed. The pile contained 18,000 feet of lumber and 16,000 shingles, and it speaks well for the men that the whole of this, as well as the wharf, was not destroyed.

Foreman Suffers Injury—On Wednesday morning the pliedriver in use on Swan & Tomkins and the Government wharf, at Comox, upon which were being loaded the lumber of Thomas Beck, the foreman of the work, was struck by a piece of flying timber, breaking two of his ribs.

Hotel Guests Robbed—Thieves entered the Arlington Hotel last night on Friday and opening the bedroom doors of several guests got away with several gold watches, various sums of money and some articles of jewelry. The robbers effected their entrance to the rooms by using a pair of nippers to turn the keys and open the doors from the outside.

### PROMOTION FOR POLICE OFFICER

Staff-Sergeant G. C. Barber, Nelson, to Be Inspector in Charge at Prince Rupert

Staff-Sergeant G. C. Barber, attached to the Nelson detachment of the British Columbia Police, has been promoted to the rank of Inspector and placed in charge of the Prince Rupert force. Born in England, Inspector Barber has been a member of the Provincial Police for more than twenty-five years. He is to take over his new duties immediately, relieving Inspector John Macdonald, who will return to his post at Nelson. Inspector Macdonald was sent to Prince Rupert following the murder of Acting Inspector W. J. Service and Sergeant G. Greenwood there a few weeks ago.

### Newly-Appointed Canon a Brother Of Dean Elliott

Canon William Thompson Elliott, newly-appointed canon of Westminster, is a brother of Very Rev. Spencer Elliott, Dean of Columbia and rector of Christ Church Cathedral here. Canon Elliott for the past twelve years had been vicar of Leeds, a quasi-Episcopal post, where the administrative work was considered greater than that of some vicars. Canon Elliott has been canon of Peterborough, Leicester, Liverpool and Ripon, while the Dean of Columbia held canopies in Sheffield, Southwell, Manchester and Liverpool.

#### AT CAMPBELL RIVER

Sir—Regarding the fire on the Island, I want to state that I was at Campbell River yesterday morning and back in the afternoon, I was surprised to see that the fire had not reached the highway anywhere, except a short place of about half a mile long at or near Oyster River, about ten miles from Campbell River. The air was clear and there was no smoke in sight. We ran into a rain shower between Courtenay and Campbell River and when we returned it was still raining. The heavy clouds over the mountains where the fire was indicated a heavy rain was falling. The fire warden at Courtenay said the fire was a hot one on account of everything being so dry, which is unusual on the Island, but that they had the fire well under control and did not think there would be any more trouble. All of the tents at Courtenay were empty and the farmers, who had been driven out were returning to their homes. To show you the telling effects of these fire reports, last night—August 3, we only saw one foreign car on the other side of Nanaimo and on an eas from the State of Washington. A Quilicum Beach there were a number of cars, all British Columbia and mostly from Vancouver. JAS. A. GRIFFITH, Beverly Hotel, 724 Yates Street, August 1, 1938.

### CHARGE BORDER IS VIOLATED BY PLANES

BERLIN, Aug. 3 (CP-Havas).—The official German News Agency (D.N.B.) today announced two Czechoslovak planes violated the German frontier and flew over the German town of Glatz more than twenty miles from the Czech-German border. The planes' occupants apparently took photographs, the agency said.

### OLD AGE PENSIONERS DESIRE BETTER TERMS

Local old age pensioners gathered on Tuesday evening in the Eagles Hall and discussed the question of more liberal allowances in connection with the fund. The local Old Age Pension Corporation is known as No. 3. There were 125 members who signed the roll at this meeting, presided over by Henry Wilson, with George Crook, secretary.

The secretary read a circular which was presented to the Provincial and Dominion Governments in 1935-36. This memorandum set out that the eligible age for beneficiaries under the act should be sixty-five years, instead of seventy as at present; the allowance should be at least \$365 a year, instead of \$20 a month; residence qualification should apply to residents anywhere in Canada for twenty years; exemption of property to the value of \$2,500 should be allowed and not militate against the obtaining of the pension; non-productive property should be exempted from the requirements; the fact that an other-

The bidding at both tables was the same. South started with one club. West passed. North bid one diamond. East passed. South jumped to two no trump, and North went to three no trump. The opening lead, also, was the same, namely, the heart five.

"At the table at which I played as declarer, I won with the heart queen and immediately led a diamond. West ducked and the ten held. Now, hoping that the defender with the ace would—while I hold off and would choose to do so out of fear that I held three diamonds, I led the diamond king. After a long huddle, however, during which I could see him mentally losing a coin, West took his ace, and after that I was finished. I never could return to dummy and, since West cleared his heart suit immediately, I finally wound up by going down three tricks.

"At the other table the first plays were exactly the same, and this similarity went even as far as West's huddle on the second diamond play. This West, our teammate, guessed wrong; that is, he thought declarer had three diamonds, hence was afraid to take the second round. Having attained his objective of two diamonds, West declared then shifted to a club and took the finesse. It worked, and he established his fifth club while retaining heart control, winning in all four club tricks, two diamonds, two hearts, and one spade. The resultant saving of 300 points was our Waterloo.

"What we would like to know is just this: Was it luck, pure and simple that at my table West took the second diamond while at the other table our teammate held off?

## Norwegian Singer Has Ovation From Student Audience

Ellen Repp, Contralto, in Recital Under Summer School of Education Auspices, Shows Superb Voice in Programme of Variety

**A** GLORIOUS singer, possessor of one of the most superb female voices heard here for many years, is Ellen Repp, American-Norwegian contralto, who was presented in recital at the High School auditorium last evening under the auspices of the Summer School of Education.

Young, with a magnificent natural, usually sparkling reading for a voice of such resonance and depth of tone. The difficult intervals of the infectious "Come Let's Be Merry" were taken with utmost facility. Here as elsewhere, her enunciation was faultless.

In the German group one of the most artistic was Wolff's "Alle meine Entchen" (The duck) accompanied by Takacs' "Marzia Blumchen" (The flower) where the accompaniment was in two keys simultaneously, while the singer used a third; the French group, in which included Hageman's "Do Not Go My Love" sung with restraint, rounded out a memorable programme to which several encores were added.

**FINE PROGRAMME**  
Discriminating taste and versatility were shown in the choice of numbers, and she sang with almost equal facility in Italian, English, German, French and Norwegian, although in the last-mentioned she seemed, as might be expected, to be more completely the very embodiment of the spirit of the song.

This group included three little "Nursery Rhymes" or "Nursery Rhymes," whose interpretation she had learned in Norway directly from the composer, "Monrad Johansen," and which she sang with inimitable spirit. "Bokey Man Song," a delightful characterization, "Lullaby," very charming and tender, and "The Little Goat."

Also in this Norwegian group were three lovely Grieg numbers, including "Vaaren," considered to be the greatest by this composer, and of which she gave a most expressive and moving interpretation, which was also a lesson in tone production, beauty and breadth of phrasing, and all-round command of her medium.

In her opening Italian numbers Miss Repp offered admirable contrast in Beccia's "Lungi dal caro bene" and the brightly conventional Handel "Chio mai vi possa" an un-

## CLOSING SCORES IN O.C. CRICKET

**LONDON, Aug. 3**—Close-play scores in English county cricket championship matches started today follow.  
Middlesex, 395 (Edrich 159), Warwickshire, 14 runs for one wicket.  
Northamptonshire, 220 (James 91), Sussex, 32 runs for one wicket.  
Hampshire, 313 vs. Worcester.  
Gloucestershire, 388 runs for three wickets (Hammond 117 not out, 100), vs. Glamorgan.  
Essex, 402 (Wilcox 102) vs. Nottinghamshire.  
Kent, 329 (Fagg 134), Lancashire, 94 for three.  
Leicestershire, 297, Yorkshire, 23 runs for no wickets.  
Somerset, 352 for six (Lee 162) vs. Derbyshire.

## JACK BENNY VISITS CITY

"No More Cigars," Says Radio Star, Following Examination by Doctor

Seattle and Vancouver newspapermen who interviewed radio's famed comedy star, Jack Benny, on his way to Vancouver Island, and wrote reams of copy on his "inevitable" cigar, today find themselves as far out on the "limb" as the sports writers who backed Schmeling in the last world heavyweight title fight. For contrary to all their publicity, "Buck" Benny is quitting smoking.

Admittedly caught by a reporter for the first time in his life when he was not puffing on a huge Perfecto, he yesterday admitted that under doctor's orders he had cut down from eighteen cigars a day to a mere three within the last week. And by the time he returns to his home in Beverly Hills he hopes to forgo the habit completely.

The admission came during an interview in his suite at the Empress Hotel, where he was resting following his trip from Vancouver.

## SMOKING TOO MUCH

"I suppose I was actually smoking too much," he smiled boyishly, "but the doctor said to cut it out—or else. So I promised."  
And he is sticking to his word. For while the doctor is far away in California and Mary Livingstone, his wife, is in Seattle looking after their four-year-old daughter Joanie, Jack steadily refused to accept proffered cigarettes or cigars. The comedian made the trip to Nanaimo from Vancouver yesterday afternoon with his brother-in-law, Hillard Marx, and expects to leave for Port Angeles at noon today. He will rejoin his wife and Joanie and motor South to their home.

## SECOND VISIT HERE

"I landed in Victoria once long ago when I was still in vaudeville with the Marx Brothers," Jack recalled. "It was back in 1920, if I remember correctly, in the old Orpheum Theatre. We only played a three-day stand so I didn't get much time to see the city. Last night the comedian motored around Victoria planning to see Butchart's Gardens, and possibly a motion picture."  
"This holiday is just about one of the most spontaneous I have ever had," the comedian stated. "We started to drive to New York to see my wife's two-year-old horse, Buck Benny, run in the Saratoga races. Then we changed our minds at the last minute and drove to Vancouver where Mary wanted to see some friends she made during her stay there some years ago. And having heard so much about Victoria I drove into the wooded counties."

## 'SALADA' TEA is delicious

wanted to make the trip here. And I may say I don't regret it—your city is one of the loveliest I have ever seen."

**TRIP REFRESHING**  
High in his praise of Victoria's "beautiful gardens and homes," the radio star had shaken off the "last" trace of the air of weary boredom commented on by Vancouver reporters. He asked pointed questions concerning income taxes in Canada but refused to say whether he was contemplating giving up his present residence.

"I only have one regret and that is the fact that I won't have time to do any fishing," Jack said. "I have never done any myself because I've usually been too busy. But judging from the reports I've read in California, it must really be spot. Perhaps next year if we make a trip to Alaska as we planned, I will have time to stop off here," he added.

## HIGH IDEALS MUST BE SET

Judge W. C. Kelly Addresses  
Bruce, Huron and Grey  
Old Boys at Picnic

Speaking before the former residents of Bruce, Huron and Grey Counties of Ontario at a picnic at Mount Douglas Park yesterday, Judge W. C. Kelly Grand Forks, admonished his hearers to be worthy of their ancestors. He urged the young people to hold high the ideals for which their fathers and mothers stood and not to be afraid of difficulties that might have to be encountered.

Judge Kelly said he sometimes thought that the boys and the girls of today had too much done for them in an educational way. Life was a struggle and he realized that the reason why their fathers did so well in Bruce, Huron and Grey was because they had overcome the difficulties they had to face. The influence of the mothers had a great deal to do with the success that attended their sons and daughters in this life. Great women that had heard so much about Victoria I drove into the wooded counties."

## Guild Nets Large Sum From Party

The sum of \$300 was realized from the annual garden party held yesterday afternoon in the garden of Bishop's Close by the Women's Guild of Christ Church Cathedral. The affair was opened by Very Rev. Spencer Elliot, Dean of Columbia, who complimented the guild upon its untiring work in the interests of the cathedral. Cosage bouquets were presented to Mrs. Elliott and to Miss Violet Powles, pupils of the latter taking part in the affair.

Stalls were arranged under the trees in the beautiful garden, the fane being in charge of the Junior Women's Guild. Home cooking, Mrs. J. W. Speck, Miss L. George and Mrs. C. O'Hara; candy, Mrs. P. Hardiman, Mrs. Spinkley and Mrs. Dixon; lavender and flowers, Mrs. Lettice and Mrs. Caldwell; spinning jenny, the Misses Beryl and Makie Speck, and ice cream, Mrs. C. Weighsforth and Mrs. J. Chios.

Tea was served in the vestibule of the Memorial Hall under the chairmanship of Mrs. J. W. Robinson. Mrs. T. Lewis and Mrs. E. Rogers, assisted by members of the A.Y.P.A. and Junior Guild members. Mrs. Fimmore did a thriving business with her "Smile of pennies." Mrs. Richardson sold the tea tickets, and Mrs. W. A. Gallier took after the gate receipts.

Music for the dances was provided by means of an orthophonic, kindly loaned by the Kent Piano Company.

## Aged Women's Home

The regular meeting of the committee was held at the Aged Women's Home on Tuesday afternoon, the president, Mrs. W. L. Clay, in the chair. The secretary reported that two vacancies had occurred during July, but were quickly filled and two were still on the waiting list, awaiting vacancies, which makes the committee all the more anxious to fulfill the lower floor if funds were available. The committee has received a bequest of \$250 from the estate of the late Miss A. E. Wynne; also an installment from the Hulda Koehle estate from the Royal Trust Company. These are being placed in a fund to enable the committee to continue the good work now being carried on. The

All members are asked to attend to complete arrangements for the picnic to be held at Finnetty Bay on Wednesday, August 10. Tea, sugar and milk will be provided, and members are asked to bring their dishes. Anyone wishing transportation is asked to phone 9664 not later than Saturday.

## Eta Beta Pi Sorority

The Eta Beta Pi Sorority met on Monday evening at the home of Miss Kaye Mothershead, Gladstone Avenue. The business was concluded the evening was spent in playing "Michigan." Refreshments were served by the hostess, assisted by Miss Doris Muir. The next meeting will be held on August 15 at the home of Miss Betty Kyle.

## Daughters of St. George

Victoria Lodge No. 83, Daughters of St. George, met last night in the S.O.E. Hall, the worthy president, Mrs. J. C. McEwen, in the chair. General business was discussed and it was decided to postpone the silver tea to be held at the home of Mrs. J. T. Cockings, on August 5, until later.

## TEMPERATURES AT HIGH MARK

Continued from Page 1

Readings at the 90 mark or slightly over. The forecast, "moderately warm" for Manitoba, Saskatchewan and Alberta, today cheered residents of the Prairie provinces. Tuesday in Manitoba the temperature touched 90 at Pierion and 92 at Emerson, while at Yellow Grass in Saskatchewan 88 was high for the province. At Macleod and Brimley in southern Alberta, the reading reached 80 degrees. One of the highest readings in British Columbia was at Oliver, where the mercury reached 80. Cranbrook reported 78, while Grand Forks was 72. In the Maritime Provinces temperatures were generally high.

## REPORT URGES UNIFICATION

Continued from Page 1

the adjacent municipalities forming a residential area for the commercial centre, the city.

With a united district a uniform school policy could be formulated. Through such a policy more equal opportunities for the pupils in the whole area would be possible. Boundaries between municipalities for school purposes would disappear and the schools would serve to accommodate the children in the area to the best advantage.

Facilities for advanced technical and commercial education would be available to the whole area, and would be centralized, thus preventing wasteful duplication of equipment and services. A feasible system of junior high schools could be planned more economically and would meet the needs of a greater number of pupils.

## REMOVAL OF DEFECTS

"It goes without saying," the report continues, "that a competent administrator well versed in matters of educational supervision and administration, and possessed of that quality of professional leadership necessary in such a system with the assistance of capable colleagues, would give to Greater Victoria an efficient system of education, free from many of the defects pointed out in this survey report and containing many of the desirable features found in progressive modern systems."

"There would result a more uniform system of grading and classification of pupils. Transfer of teachers from one school to any other in the area would be facilitated. And appointments to higher positions such as principalship could be made from the best available material."

"One fortunate feature in connection with the union of these districts is the fact that there is no great load of debt to be carried on school buildings."

## DEMONSTRATION AREA

"The area, by its proximity to the Provincial Department of Education, and by its close association with the Victoria Summer School, might easily develop into a demonstration area, tending to initiate policies and procedures which would have a marked and elevating effect upon education throughout the province. Not only would such an achievement give to Greater Victoria a school system worthy of the area, but would naturally tend to centre the educational leadership in its logical place, namely, the capital city of the province."

## MANY ECONOMIES

"Instead of four secretaries with offices and assistants there would be only one. Economies would also be effected in the purchase of supplies in the care and maintenance of buildings, and possibly in the cost of insurance. Purchase and circulation of library books could be made more economically."

## ORGANIC UNION

The committee suggests that complete organic union of the four municipalities as one municipality would be the most satisfactory solution. "One which ultimately must be adopted." Automatically it would remove all the problems created by the lack of union and financially it would solve all problems except those which arise from the distribution of school costs between the Government and the local school districts.

Amalgamation upon the plan would mean that there would be a common basis of assessment in the entire area, and one assessing authority. This would make it possible to bring assessed values into closer relation to real values. Assessments over the entire area would be changed, ultimately, if not at once.

### Miss B. Phillips Is Bride Of Major F. S. Greenhouse

St. Paul's Naval and Garrison Church Scene of Quiet Wedding Yesterday at Noon—Bride and Groom Leave for England

A smart-but quiet wedding was solemnized in St. Paul's Naval and Garrison Church, Esquimalt, at noon yesterday, when Rev. Arthur Ruchlger, assisted by Right Rev. W. P. Remington, Bishop of Eastern Oregon, performed the marriage ceremony at which Ruth Elizabeth (Betty), younger daughter of Mr. and Mrs. George Phillips, Oak Bay, formerly of Esquimalt, became the bride of Major Frank Stewart Greenhouse, Indian Army, retired.

The wedding marches were played by Mr. P. Hughes, and as the register was being signed, the congregation sang the hymn "O Perfect Love."

The radiant bride, who was given away by her father, wore a strictly tailored white wool suit, white accessories, and a white hat faced with navy blue. A corsage bouquet of Opelia roses completed her becoming ensemble. The bride was attended and Mr. Arthur Jebb Sprout Lake, was best man.

A few intimate friends were entertained at luncheon by Mr. and Mrs. Phillips at their home on St. David Street after the service, lovely deep cream stocks adorning the table. The bride cut the cake after the customary toasts had been drunk and responded to.

Major and Mrs. Greenhouse left later for the mainland, and will spend a few days in Toronto before sailing for England, where they will visit the bridegroom's mother, at the family home, Eversley, Lyndhurst, Hampshire. Major Greenhouse was lately manager of the Anglo-Persian Oil Company in Tehran, Iran, before coming to Canada.

### JAPANESE AND RUSSIANS FIGHT

Continued from Page 1

With the Changkufeng area recaptured, authoritative sources said, Japan would not advance farther. Russia has contended that the sector is Soviet territory, while Japan insists it is a part of Manchukuo.

Advices reaching Tokyo said Soviet tanks and motor lorries rolled along the road between Novosivsk and Fashish throughout the day, apparently in a concentration of strength for an attempt to recapture Changkufeng and Shachofeng Hills.

### CITIES IN DARKNESS

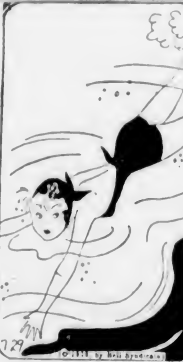

Defence headquarters for the Japanese mainland issued orders darkening all outdoor lights in Tokyo, Yokohama, Kobe and Osaka, and other cities and towns of Eastern Japan.

On the Asiatic mainland, the Government of Korea ordered a blackout and air defence measures throughout the Northern area. Korean advisers said residents of villages in and near the battle zone were evacuating.

Neutral observers expressed belief that the present incident may be the beginning of Japan's second unofficial war in the Orient. They believed Russia may have picked this as the psychological moment to increase Japan's staggering military burdens.

### Patience Is Advised by Runciman

PRAHA, Aug. 3 (AP)—Viscount Runciman, Great Britain's official adviser and mediator, tonight counselled patience in attempts to reconcile differences between the Czechoslovak Government and the nation's 3,500,000 Sudeten Germans.

In a brief address to 200 newspapermen he indicated his friendly private attempt to prevent an explosion in Czechoslovakia—an effort which enjoyed the unofficial sympathy of the British Government—would not be a hurry-up job of statesmanship.

### DROWNED IN CANAL

### Social and Personal

#### Entertained at Tea Hour

Mrs. J. D. C. Macmurchie, assisted by her daughters, the Misses Bona and Lois, entertained yesterday afternoon at her home on Cook Street at a delightful tea to honor Miss Patricia Van Norman, who is to become the bride of Mr. Bruce Macmurchie early next month. The reception rooms were lovely with masses of gladioli in pink and peach shades. The bride-to-be's mother, Mrs. J. Wallace Van Norman, and Mrs. Percy E. Bailey presided at the prettily-appointed tea table, which was covered with a cutwork cloth, and centred with pink carnations and glassware in crystal vases.

Miss L. A. Arcey, Miss Thelma Cockett and Miss Margaret Purves assisted the hostesses in serving. The guests were Mrs. Percy E. Bailey, Mrs. A. Young, Mrs. A. McCaw, Mrs. F. W. Purves, Mrs. Walter Saunders, Mrs. Thomas Wallace, Mrs. J. W. Van Norman, Mrs. J. J. Hewitt, Mrs. W. Wells, Mrs. A. G. Lambert, Mrs. J. Addison, Mrs. P. Mitchell, Mrs. L. A. Arcey, Mrs. B. ## Pittsburgh Widens Lead Over Giants; Wins Double-Header

Pirates Take Twin Bill From Boston Bees to Stretch Advantage Over New York to Five and a Half Games—Yanks Triumph While Indians Divide Double-Header

Rapping out a total of twenty-eight hits, the Pittsburgh Pirates overcame both the Boston Bees and 95-degree heat in two contests yesterday, 9-4 and 5-3, to widen their National League lead to five and one-half games.

Though the Bees couldn't get to Cy Blanton with any success in the opener, the heat finally did, and the Pirates' ace hurler left the box at the end of the seventh while leading, 7-4. However, he received credit for the victory and became the first Pirate hurler to win eight games in a row, a figure neither Bob Klumper nor Mace Brown could reach, although each won seven straight earlier this year.

A three-run ten-inning rally that included Goodman's twenty-seventh homer of the season with one on base, gave the Cincinnati Reds a 6-3 victory over the Phillies.

The Giants broke out their home run bats today and walloped the Chicago Cubs, 8-3, in a twelve-inning attack featured by four round-trip clouts.

A three-run rally in the eleventh inning, featured by rookie Joe Gordon's fourteenth homer of the year, gave the New York Yankees a 10-7 victory over the Tigers in a free-hitting American League game. Red Ruffing also hit a homer for the Yanks.

The Cleveland Indians split a double-header with Boston, losing the first game, 4-3, but winning the second, 8-6. The Philadelphia Athletics blasted Chicago White Sox pitchers for a total of thirty-three hits to win both ends of a double-header, 14-2, and 13-5. Bob Johnson made his nineteenth and twentieth home runs of the season in the first game.

The St. Louis Browns evened their current series with the Washington Senators, 5-3. Harold Galt hit his fifteenth homer of the season in the seventh.

## ZULU GIANTS IN TOWN FOR GAME TONIGHT

Touring Nine Will Oppose Victoria All-Stars at Athletic Park

Back in Victoria after a hard four-game series across the border, the touring African Zulu Giants will make their third and final appearance at the Royal Athletic Park this evening at 6 o'clock, when they oppose the Victoria All-Stars in another exhibition ball game.

Manager Jerry Goodwin and his club reached the city yesterday from Port Angeles, after winning three of their four games with American nines. They lost a 6-5 decision at Tacoma for their second setback in their last forty starts.

Little Prince Rusto, master comedian whose clever comedy kept more than 4000 fans highly amused last week during the two-game series here, will start on the mound tonight for the Cannibals. Manager Jerry Goodwin, in an announcement made last night, stated that Rusto is definitely listed as the starting pitcher, while Maccam will do the chores behind the plate. The

task imposed upon those responsible for the carrying out of the lawn bowling tournament being held in Victoria has been an onerous one, but success has crowned their efforts, so that there will be no doubt that everything from now on will proceed according to schedule.

Yesterday was devoted to competition in the men's doubles contest, each team in the ten series playing four games. Today the remaining three games in this competition will be played.

In the men's singles competition the contest has been whittled down until but four competitors remain. The quartette is composed of Murray, A. Pandey, and J. W. Mercer, of the Burnside club, W. Yates of Vancouver, and D. Wetherson, of Cedar Cottage. The semi-final and final will be played on Saturday.

The rink skipped by B. Barr of C.P. Victoria, last night succeeded in reaching the final round by defeating S. Young of California in a game that kept the spectators deeply interested until the final bowl had stopped rolling. When the first end had been played it was found that the Californian had scored seven points out of a possible eight, something which is rarely accomplished. As a result those watching the contest felt pretty well assured that the Southlander would carry off the honors. However, Barr and his stalwarts were still to be reckoned with, especially when the score at the finish of the sixth end stood 14 to 8.

The junior cricket school, under the direction of Reg Wymann, will be held on the grounds of the University School this afternoon at 2:30, as Macdonald Park is not available again.

**JUNIOR CRICKET**  
The junior cricket school, under the direction of Reg Wymann, will be held on the grounds of the University School this afternoon at 2:30, as Macdonald Park is not available again.

**WINNERS AT OAK BAY**  
Mrs. Hea Peterson and Mrs. King tied for top place in "A" class in the monthly medal competition held at the Victoria Golf Club. The former had a card of 92-93, and the latter scored 101-18-83. In "B" division Mrs. F. D. Todd was first with 98-19-79.

**SPORTS PROGRAMME Will Be Held Today At Macdonald Park**  
WITH twenty-four events listed on the attractive programme, the annual Navy Week track and field meet will be staged this afternoon at Macdonald Park. Sailors from the visiting British cruiser H.M.S. York and members of the Royal Canadian Navy from the Esquimalt station will vie for honors in the events confined to naval men, while local athletes will have a chance to display their speed and ability in the open events. Relay races between the visiting bluejackets and the R.C.N. should provide good sport, while the open tug-of-war promises to be one of the highlights of the meet. The first race will commence at 1:30 o'clock.

**PLAYING IN B.C. NET MEET**  
Promising young tennis players taking part in the British Columbia championships and the Pacific Northwest sectionals at the Willow this week. On the left is Ron Sidaway, Vancouver, who teamed with Jimmy Bardsley, also from the Mainland, to win the sectional doubles crown from Russ Hawes and Jack Brown, strong Vancouver combination, after a sharply fought match. The player on the right hand side of the net is Art Groun, son of the famous movie comedian from Hollywood, Groucho Marx. The young Californian has been playing in the various Northwest tournaments and is a coming player, according to the experts.

## Lawn Bowlers in Action at the Hill

The Colonist cameraman took a jaunt to Beacon Hill greens yesterday afternoon and caught some of the competitors, taking part in the eleventh annual tournament of the Greater Victoria Lawn Bowling Association, playing during the rinks competition. Play during the first three days has been extremely keen among the competitors here from various parts of the Pacific Coast. Several Californians are entered and are upholding their own against the strong Island and Mainland opposition. The entry list this year is one of the largest in history, the officials finding it necessary to swing some of the men's singles matches to other greens in order that the meet will conclude on Saturday.

## Barr's Rink Gains Final of Bowling Meet in the City

Canadian Pacific Experts Defeat Californians in Semis by 18-14 as Play Continues in Greater Victoria Lawn Bowling Tournament

R. W. H. YODHILL

The task imposed upon those responsible for the carrying out of the lawn bowling tournament being held in Victoria has been an onerous one, but success has crowned their efforts, so that there will be no doubt that everything from now on will proceed according to schedule.

Yesterday was devoted to competition in the men's doubles contest, each team in the ten series playing four games. Today the remaining three games in this competition will be played.

In the men's singles competition the contest has been whittled down until but four competitors remain. The quartette is composed of Murray, A. Pandey, and J. W. Mercer, of the Burnside club, W. Yates of Vancouver, and D. Wetherson, of Cedar Cottage. The semi-final and final will be played on Saturday.

The rink skipped by B. Barr of C.P. Victoria, last night succeeded in reaching the final round by defeating S. Young of California in a game that kept the spectators deeply interested until the final bowl had stopped rolling. When the first end had been played it was found that the Californian had scored seven points out of a possible eight, something which is rarely accomplished. As a result those watching the contest felt pretty well assured that the Southlander would carry off the honors. However, Barr and his stalwarts were still to be reckoned with, especially when the score at the finish of the sixth end stood 14 to 8.

The junior cricket school, under the direction of Reg Wymann, will be held on the grounds of the University School this afternoon at 2:30, as Macdonald Park is not available again.

**JUNIOR CRICKET**  
The junior cricket school, under the direction of Reg Wymann, will be held on the grounds of the University School this afternoon at 2:30, as Macdonald Park is not available again.

**WINNERS AT OAK BAY**  
Mrs. Hea Peterson and Mrs. King tied for top place in "A" class in the monthly medal competition held at the Victoria Golf Club. The former had a card of 92-93, and the latter scored 101-18-83. In "B" division Mrs. F. D. Todd was first with 98-19-79.

**SPORTS PROGRAMME Will Be Held Today At Macdonald Park**  
WITH twenty-four events listed on the attractive programme, the annual Navy Week track and field meet will be staged this afternoon at Macdonald Park. Sailors from the visiting British cruiser H.M.S. York and members of the Royal Canadian Navy from the Esquimalt station will vie for honors in the events confined to naval men, while local athletes will have a chance to display their speed and ability in the open events. Relay races between the visiting bluejackets and the R.C.N. should provide good sport, while the open tug-of-war promises to be one of the highlights of the meet. The first race will commence at 1:30 o'clock.

**PLAYING IN B.C. NET MEET**  
Promising young tennis players taking part in the British Columbia championships and the Pacific Northwest sectionals at the Willow this week. On the left is Ron Sidaway, Vancouver, who teamed with Jimmy Bardsley, also from the Mainland, to win the sectional doubles crown from Russ Hawes and Jack Brown, strong Vancouver combination, after a sharply fought match. The player on the right hand side of the net is Art Groun, son of the famous movie comedian from Hollywood, Groucho Marx. The young Californian has been playing in the various Northwest tournaments and is a coming player, according to the experts.

## CAMERON IN NET VICTORY AT TORONTO

Vancouver Tennis Star Continues Bid for Canadian Championship

TORONTO, Aug. 3.—While the rest of the field strove and sweated in the sun, Frankie Cameron coolly fashioned a 6-0, 6-1 victory over Bruce Hall, of Toronto, today to advance into the quarter finals of the Canadian tennis championships.

The solemn young master of control applied his sparkling court coverage once in a while, opening up almost for the first time in the tournament but most of the way he was content to sail half a bounding drop shot for points or to lay the ball perplexingly at the blond youngster's feet.

A blistering sun beat down upon the clay courts for the third successive day. Of the seven others who qualified for the fifth stage, only Laurd Watt, of Montreal, advanced easily. Watt defeated Culbert Hopper, Toronto, 6-1, 6-2.

Even Bobby Murray, of Montreal, Canada's No. 1 player, was pressed at every turn to defeat Dr. Georges Ledero, Montreal, 7-5, 6-3. Ross Wilson, Toronto, and Doug Cameron, of Vancouver, had even better of the tournament's surprises. Bill Pickett, of Hamilton, 6-3, 2-6, 6-3, and Cameron stopped Don McDiarmid, of Ottawa, 6-1, 10-8.

Wimmer Allison turned back the bid of a volunteer most of the named players had feared Bob Madden, of Detroit, 6-4, 7-5. Gordon Robinson, of Stamford, Ont., gained the right to play Parker tomorrow by beating Fred Seme of Hamilton, 6-3, 3-6, 6-4.

Carl Fischer of Detroit, Michigan state champion, downed Roger Durand, of Montreal, 6-1, 7-5.

Cameron will play Wilson tomorrow in the upper half of the draw. In the lower bracket, Murray will meet Fischer and Watt will face Allison.

Bill Pedlar of Vancouver beat the son of his junior men's title, stopping Donald Bennett, of Hamilton, 6-0, 6-1, while Wimmer Wilson of Saskatoon won over George Young, of Port Colborne, Ont., 6-0, 4-6, 6-3.

Bill Pedlar of Vancouver beat the son of his junior men's title, stopping Donald Bennett, of Hamilton, 6-0, 6-1, while Wimmer Wilson of Saskatoon won over George Young, of Port Colborne, Ont., 6-0, 4-6, 6-3.

## REGISTER FIVE-SET VICTORY AT WILLOWS AFTER GREAT MATCH

Defeat Jack Brown and Russ Hawes After Staging Rally by Scores of 7-9, 2-6, 6-4, 6-2, 7-5—Hank Prusoff Wins Singles Title From Mel Dranga—Eliminations Continue

Coming from behind in sensational style after dropping the first two sets, Jimmy Bardsley and Ron Sidaway, Vancouver, blasted their way to the Pacific Northwest sectional doubles tennis championship yesterday afternoon at the Victoria Lawn Tennis Club at the Willows.

The winning duo beat out another Vancouver combination Jack Brown and Russ Hawes in the final after a thrilling five-set match. Henry "Hank" Prusoff, Seattle veteran, had too many shots for his town mate Mel Dranga, in the final of the P.N.W. sectional singles in straight sets in a match which was just as easy as the scores indicate.

However, the spotlight was switched on the all-Vancouver final in the doubles. Brown and Hawes won the first set after extra games, 9-7, and then walked through the next session with little opposition, 6-2. The tide turned as the players exchanged courts, and Bardsley, member of the last two Canadian basketball championship teams, and his partner, Sidaway, took the third and fourth sets to square the battle by scores of 6-4, 6-2. The final and fifth set was a thriller with the winners managing to come through by a 7-5 score. The match was deadlocked at five-all when Sidaway and Bardsley broke through Brown's service to go on to victory.

**BROWN ADVANCES**  
The third round of the men's singles in the British Columbia championship was completed. Five Californians, two Seattleites, and Jack Brown, Vancouver's lone representative remaining, marched through to the next round. Bobby Cameron, of Coronado, Cal., winner of the Western Canada title in Vancouver last Saturday, beat out Don Lewis, Portland, in straight sets, 6-3, 7-5, while Brown took the measure of D. Woodbury, Los Angeles, in a tie of sessions by scores of 4-6, 6-1 and 6-4. Jimmy Bardsley, sevil in the side lines before the fine playing of Harold Wagner, San Francisco, one of the top seeded players, in a three-set battle in which the American had the upper edge throughout.

**EASY VICTORY**  
Miss Eleanor Young, finalist in the Western Canada tournament, had an easy task hurdling Mrs. R. V. Hocking, Victoria, in the women's singles, 6-1, 6-0, while Miss Kay Staples, Duncan's young tennis star, put out Miss Jean Campbell, Victoria, 6-4, 6-1, and Miss D. Buckell, Oakland, came through against Miss R. Shuman in another straight set argument.

Favorites advanced in the next rounds of the men's and women's doubles. Officials of the club announced yesterday that today will be "kids' day" at the Willows. All youngsters under the age of eighteen will be admitted free to the matches, and it is hoped that a full turnout of Victoria's junior tennis players will be on deck.

## COURT SENTENCES WILLIAM HODGES

To Serve Fifteen Months in Prison  
As Total Penalty for  
Four Charges

Convicted of a charge of obtaining \$25 worth of clothing and \$20 in cash from O. H. Dorman, William Hodges was sentenced to serve fifteen months in prison by Magistrate Henry C. Hall in the city police court yesterday morning.

Hodges also received a sentence of fifteen months in prison for obtaining \$11.90 from David Spencer, Ltd.; three months for obtaining \$1 from the Veterans' Sightseeing & Transportation Co. Ltd.; and three months for obtaining \$12.50 from Miss I. Terry. All sentences will run concurrently.

In sentencing the accused, Magistrate Hall stated:

"You have found out that what I

said to you years ago is coming true. I will send you to jail in the hope that by decent conduct you will be admitted to the Borsal System."

Hodges then asked if the sentence would date from the time of his arrest.

"You have been treated well. You should not ask for more," the magistrate said.

**WAR TRAINING FOR  
TELEPHONE WORKERS**

LONDON, Aug. 3 (CP-Havas).—Operators in London's central telephone exchange are undergoing intensive training to work their switchboards during air raids and gas attacks, it was revealed today. Two hundred and fifty operators of the 1,000 in the Faraday Telephone Building have learned to do their work with gas masks on.

## What Today Means

peculiar circumstances may bring about numerous unexpected meetings of old friends this day, if it should be a lucky one for you. If it is your birthday, before it is too late, you may find yourself decidedly optimistic. You probably will be greeted with making serious mistakes through your mental reactions and keen intuition, neither of which can be disregarded with safety. This day might require "using your own judgment," and the working out your personal affairs, for conditions are apt to make it difficult for the average person to give you an unbiased opinion. If a woman and August 4 is your birthday, you must avoid becoming involved in any intrigue, if you would retain the friendship of some trustworthy people. Two often for your own good you may forget there are generally two sides to every story, and by accepting one version as true, form a wrong and unjust opinion. Too often people born on this date fail to stick to their own guns, and by trying to help

someone else find themselves with a tangled skein to unravel. Through teaching, research work, trained nursing, selling, acting, painting or playing a musical instrument, you may win distinction and financial independence. You should be well satisfied in matrimony.

The child born on August 4 usually can be persuaded, but seldom forced into doing a thing. Experience will prove to be this youngster's best teacher for children born on this date seldom take to heart

things that they must learn by rule of rote.

If a man and August 4 is your natal day, you perhaps are inclined to be too aggressive on some occasions to succeed. You must be open and above board in all your transactions. Through astronomy, or other scientific work, theatrical interest, preaching, lecturing, painting, writing of engineering, you may make an enviable record for yourself, and plenty of money.

## Gold's Feature of Trading for Day On Wall Street

NEW YORK, Aug. 3 (AP).—The backwash of a London gold rush toward ripples of buying in the yellow metal shares in Wall Street today, making cross-currents in the stock markets slow and drift.

The gold group, regarded as a family-own in recent years of going counter to the main trend of stocks when capital in the world's money centres was moving underground to seek safety in the metal.

Reports more than \$14,000,000 of gold had been bought in the open market in London, supplementing a recent steady flow of capital into gold, while the British pound was skidding to a new low, shifted attention in speculative camps from the business recovery trend at home to events abroad.

Final losses in most stocks were moderate, however, and trading became extremely quiet on the downside. The Associated Press composite price of 60 stocks closed at 46, off 2 of a point. Transactions totaled 817,160 shares against 817,640 yesterday.

The bond market today closed lower. Continued Russian-Japanese hostilities bore down on Japanese securities. Japanese Government 6 1/2% lost 5 1/4 at 62 1/4 and the 5 1/2% ended down 2 1/2 at 44. Tokyo City 5 1/2% of '61 closed at 42 3/4, off 4 1/4. Tokyo Electric Light 6% of '33 at 40 1/2, off 4, and Yokohama 6% of '61 at 43 1/2, off 2 1/2.

**Jane Dixon Says:**DOES MAN POSSESS POWER TO GUIDE OWN DESTINY  
THIS READER HAS TRIED IT AND SAYS NO

Do you believe in fate?

That is what the young man in today's letter asks this column. Personally, the writer believes that fate is within you, that each individual is the captain and the crew of his own ship of fate. However, it is a moot question. What is your answer to it?

"Jane Dixon:

"You are a woman of wide experience. You've traveled the world over, you've been in all kinds of situations, you've met all sorts of people, big, medium and little."

"Out of it all, you must have formed some opinion about whether we have to go where we are destined to go, or whether we can pull out and go where we want to go."

"I know this is a tough question, and that wise minds have been trying to solve it since civilization began."

"I held out for quite a number of years for a personal answer to the question, that is, you grab the rudder and steer yourself wherever it is you want to go, regardless of the tide."

"Well, that is the great big bunko. There are too many tides. You do the best you can, and still you're carried off your course. Something stronger than you pulls against you."

"There have been several things I've thought I'd like to do. I've tried them, but they didn't pan out. I'm not afraid of work either, but when you work hard and get no place, you get discouraged. You conclude the cards are stacked against you."

"What does a fellow do in a case like this?"

"Able and Willing."

Comment. Decide what one worth-while thing he wants to do more than anything else in the world, then keep eternally at it. Refuse to recognize failure. Take a disappointment as a lesson not as a defeat. Wise men learn by their mistakes.

When a fellow seems to have come up against a stone wall, he remembers that stone walls were built for strong men to scale. Successful careers, like Rome, are not built in a day. Many men have spent a lifetime building them.

**BOSTON BULL SAVES HIS ABERDEEN FRIEND**  
VANCOUVER, Aug. 3 (AP)—Butter, a Boston bull terrier, became a hero to at least two people here today, when he was the means of

saving the life of his little Aberdeen terrier chum Tinker. Tinker had fallen in the water near a wharf and was unable to get out. Buster tried futilely to rescue her then dashed off to fetch his owner Ross Cumbers. Cumbers arrived in time to save Tinker.
